The European Press on General Grant's Inaugural.

The Inaugural Address of Gen. Grant has produced a good effect in England. The *Standard* speaks of it as "a manly, straightforward, practical, and sensible document."

The *Times* thinks it will be very well received. [illegible]

The *Daily News* says: "The Inaugural address of President Grant has been received on this side of the Atlantic with a good deal of interest and satisfaction. [illegible]

The *Morning Post* considers it satisfactory to find that the President declares it to be his conviction that the State should pay to the uttermost farthing all its obligations. [illegible]

The *Pall Mall Gazette* says: The proclamation to the citizens of the United States, with which Gen. Grant begins his official life, is characteristic, and on the whole satisfactory. [illegible]

THE PARIS PRESS.

The Debats of March 6th says: "The language of Mr. Johnson's successor is at once sensible, honest and spirited. This thought is especially statesmanlike: 'The laws are to govern all those approving as well as those opposing them. I know no method to secure the repeal of obnoxious laws so effectual as their stringent execution.' While ardently approving the proclamation in its entirety, we cannot refrain from remarking with sorrow the passage in which the General speaks of the future commanding influence the United States is to exercise over the nations. There is the germ of many wars."

THE SPRING ELECTIONS.

Republican Victory in Huntingdon and Democratic Success in Washington.

Special Dispatch to the Pittsburgh Commercial.

HUNTINGDON, PA., March 19, 1869.

The entire Republican ticket was elected in this borough to-day, by a majority of about fifty-four, the same that Grant had in November. The vote by the Republicans for and against the Crawford County System, resulted in a majority of one hundred and twenty-three in favor of its adoption. The indications are that it met with but little opposition in the country districts, and consequently the Republican party of this county will hereafter be governed by this method in making its nominations of candidates.

FRIGHTFUL TORPEDO EXPLOSION.

Three Men Instantly Killed and Another Dies from His Injuries—One of the Victims an Alleghenian.

The Titusville *Herald* of yesterday morning has the following account of a frightful catastrophe:

The most terribly fatal accident we have been called upon to record took place on Church Run yesterday afternoon, resulting in the instant death of A. D. Griffin, W. H. Todd and Wm. Ellis, and the fatal injury of Col. F. Davidson. The accident occurred at about four and a half o'clock, at the office of Col. Davidson, on the territory leased by him on Cherry Run, about one mile from the city. So far as the facts can be ascertained, the parties were engaged in preparing a torpedo for one of the wells. As Col. Davidson subsequently explained, they were all inside the house, and while Griffin, Todd and Ellis were standing about the torpedo, jarring down the charge, he (Col. D.) was about walking toward the door. It is thought that the charge contained about seven pounds of fulminating powder, (his own invention,) while about twenty additional pounds were lying near. The explosion resulted from percussion, and the shock was perceptibly felt all over the city. The building was of course blown into fragments, and its inmates, with the exception of Col. D., were instantly killed. Their clothing was almost entirely stripped from their bodies, which were shockingly lacerated in every part. A crowd of men was speedily gathered from the vicinity. Col. Davidson was found to be conscious, but utterly helpless and experiencing the intensest pain. His right thigh was severed to the bone, as though laid open by an axe, and his chest, back, arms and head were covered with ghastly burns, his face burned to a crisp, and the sight of one eye destroyed. His first inquiries were concerning the fate of his companions, whom he feared were more severely hurt, and desired that they should be attended to. A litter was constructed, upon which, as speedily as possible, he was borne to the Bush House, and placed under medical attention. The remains of Griffin, Todd and Ellis were conveyed to the city, and placed in charge of the acting Coroner, Justice Strome, and an inquest was in progress last evening.

Mr. Griffin came to the oil regions from Chicago about three years ago, and had spent most of that interval at West Pithole, where he was engaged in the oil business. During the last year he became interested with Col. Davidson in a patent which the latter had secured upon a torpedo of his own invention, as well as a new fulminating powder, which for blasting purposes was considered scarcely inferior to nitro-glycerine. Col. Todd was also from Chicago, and is supposed to have been interested in the same improvements. He had been a resident of the oil regions for about three years past. Mr. Ellis was from Allegheny City, and had but recently entered the employ of the company for exploding torpedoes. All of the parties made their homes at the Bush House.

Few of our citizens were better known or more sincerely respected than Col. Davidson. At the outbreak of the rebellion he entered the military service as Colonel of an Illinois regiment of volunteers, raised at Peoria. Previously he had been practicing law in that city, and had filled the position of District Attorney there. At the conclusion of the war, on returning from the service he came to the oil region, where he has since remained as a practical operator, and with somewhat variable success. Removing to this city from Pithole in 1866, he commenced operations upon Church Run. He was an ardent Republican, and during the political campaign two years ago, and the Presidential campaign of 1868, his services were generously given to the party, in advocacy of the political principles which he cherished as personal devotions. He possessed a vigorous and well disciplined intellect, a very social temperament, and the most generous impulses. His address in this city on the occasion of the decoration of the soldiers' graves last summer, was a highly patriotic effort, and displayed oratorical talents of a superior order. Having at an early period made unfortunate investments, he still adhered tenaciously to his purpose of repairing all his losses, and realizing all his expectations. His recent reported discovery of a valuable explosive compound, together with oil developments prospectively certain, where he was largely interested, seemed to give promise of an abundant prosperity. Cut off in the vigor of physical and intellectual life, in the midst of the brightest anticipations, surrounded by a large circle of attached friends, the appalling fate that has overtaken him seems to point the impressive moral,

"What shadows we are,
And what shadows we pursue."

This terrible visitation casts a melancholy gloom over the entire region, and finds no parallel in anything that has preceded it.

P. S.—Colonel Davidson expired at 11:05 last night.

TENURE-OF-OFFICE LAW.

Speech of Senator Scott, of Pennsylvania, in Favor of Repeal—Commissions of Special Post-office Agents Revoked—Safety of Howard University Building—Nomination of Postmaster Withdrawn—Healthy Condition of the Finances—The State and Treasury Departments—Longstreet's Nomination—Hon. John Allison Recommended for Register of the Treasury.

Special Dispatch to the Commercial.

WASHINGTON, March 19, 1869.

The Tenure-of-Office Debate

To-day in the Senate was very interesting. Senator Scott's speech for suspension and against repeal was one of the finest yet made in the discussion and that of Schurz attracted close attention from a crowded gallery. Some Senators wanted to make a night of it, and finish the bill, but a decided majority thought best to let it go over till to-morrow, when the probabilities are that an evening session will be held. There is no doubt but that the proposition to repeal the law is weaker than it was a week ago. Several gentlemen then counted on to vote for the repeal, are for nothing more than suspension, and one or two are against either repeal or suspension, but for some modification. Various persons have canvassed the Senate closely to-day, and the most that can be said is that repeal or suspension depends on two or three Senators who have not yet said how they will vote.

Postmaster of Newport, Ky.

The President has decided to appoint Tivining, of Newport, Ky., postmaster vice Terrill.

Special Postoffice Agents.

The Postmaster General has revoked the commissions of all special agents in the post-office, except such as are actually on duty only to take effect the first of March. There is some curiosity to know whether this will stop the sons of two Republican Congressmen, whom it is said Randall made special agents as one of his last acts, so that they could take a trip from San Francisco on the mail steamers.

The National Finances.

The financial condition of the Government at the close of the present fiscal year in June will undoubtedly be very favorable. Every department of business seems to feel the good effect of the last fall's elections, and receipts from all sources are much larger than they were last winter. The customs receipts for the fiscal year will probably reach one hundred and eighty-five or one hundred and ninety million dollars, and those from internal revenue at least one hundred and fifty and perhaps one hundred and sixty millions dollars. Secretary Boutwell is on the whole very well pleased with the condition and prospects of his Department.

Assistant Secretary of the Treasury.

The nomination of Judge Wm. H. Richardson, of Massachusetts, for first Assistant Secretary of the Treasury, was sent to the Senate this afternoon, and will be confirmed at the next Executive session. Mr. Richardson was at first disinclined to accept the position, but finding how anxious the Secretary was to have him, concluded to do so temporarily. He does not resign his Judgeship, but intends at some time, not yet specified, to return thereto, his present purpose being to aid Mr. Boutwell in putting things in the Treasury on a good footing.

The Ways and Means Committee

Paid an official visit to the President and Secretary Boutwell to-day. The latter said he had no special business to bring before Congress this session, and in the course of the talk stated it was his intention to sell gold publicly and not at private sale, and also gave it as his opinion that he had power to invest surplus gold in bonds, and thought he might pursue that course. He said he would hold his subordinates to a faithful execution of their work.

The State Department.

Secretary Fish got fairly at work this morning in the State Department, and easily wins good will from all good men who call on him. The new Spanish Minister, Don J. M. Roberts, was among those who called. He formally presented his credentials. A good many office seekers were on hand, but the Secretary went off early to the Cabinet, and therefore saw but few of them.

Longstreet's Nomination.

The Senate Committee on Commerce have considered General Longstreet's nomination as Surveyor of New Orleans at two or three meetings, and will probably report it back without recommendation and leave the Senate to discuss and settle the general question of putting persons of his class into important offices.

Franking Official Matter.

The late law requiring heads of departments to do all their own franking has proved so burdensome that the Postmaster General orders the transmission of official matter when franked by the chief clerk. The whole time of one of the deputy commissioners of internal revenue was occupied some days in this business.

The White House

Was comparatively quiet to-day, because the Cabinet had a meeting and few visitors were admitted to the building. The military guard there for the last four or five years has been removed. The President's family took possession of the house to-day.

The Howard University Building.

President Sunderland, of the Howard University, and Prof. Loomis, of the Faculty, published a card to-day saying that no report implying that the University Buildings are safe was ever authorized by the committee of investigation, and that they have not entertained belief in their safety since the investigation closed. Prof. Loomis says he believes some method of essentially strengthening the buildings absolutely necessary to place their safety beyond question.

Nomination Withdrawn.

The President sent a message to the Senate to-day, withdrawing the nomination of George L. Matthews as postmaster at Dubuque, Iowa.

The Conspirator Mudd.

Dr. Mudd reached Baltimore yesterday, stopped a few hours in the city and then left for his old home, down in Charles county. He reports Arnold and Spangler well when he left the Dry Tortugas.

Indian Agents.

The President will soon begin appointing Indian agents from the Society of Quakers, selecting in all cases persons recommended to him by leading men of that sect, with some of whom he has had much correspondence.

Hon. John Allison.

Formerly member of Congress from Pennsylvania, has been recommended by Secretary Boutwell for Register of the Treasury, and the President said this morning he would be appointed.

A Press for Colored Men.

The colored men are trying to make arrangements for the establishment of a newspaper here, of which Fred. Douglass shall be editor.

WASHINGTON, D. C., March 19, 1869.

THE WAYS AND MEANS COMMITTEE.

The Committee of Ways and Means called in a body to-day upon President Grant, Secretary Boutwell and the Commissioner of Internal Revenue. They had a long talk with Mr. Boutwell upon money affairs, in the course of which he declared his determination to sell gold publicly, and never in private. He believed he had power to invest the surplus gold in bonds, and thought he would do so. He informed the Committee that the income from customs was increasing. The conversation with President Grant was mainly of a social character.

VARIOUS ITEMS.

The only nomination submitted by the President to the Senate to-day was Wm. A. Richardson, Assistant Secretary of the Treasury.

Col. Chandler is announced as Chief Quartermaster of the First Military District, and will relieve Col. Moore.

The President to-day ordered the discontinuance of the military guard at the White House, and hereafter the protection of the premises will be in charge of the door-keepers and three police officers.

The Tuscarora, Commander Queen, and Kearsarge, Commander Thornton, have been ordered from the Pacific to the North Atlantic squadron, and will report to Rear Admiral Hoff off Cuba. Dispatches from Admiral Hoff, dated Havana, March 12th, say in company with the newly appointed Consul General, Mr. Hall, he had called on the Captain General of Cuba, and secured the release of Mr. Tristes, an American citizen, native of Cuba, who was a short time since arrested on a charge of conspiracy against the Government. The action of the Captain General in this case was marked by great courtesy, he having ordered the immediate release of the prisoner, although the charges were serious.

The President has directed Brevet Lieut. Col. Pease to be relieved from duty as Professor of military tactics at the State University of Wisconsin at the end of the present college term.

Customs receipts from March 8th to 13th, inclusive, $3,[illegible].

The Postmaster General has ordered that commissions of special agents of the department who are not under pay and assignment be revoked from and after the 31st of March. The commissions of all special agents expire on the 31st of December, and must then be renewed.

Dr. H. C. Lauck, chief clerk of the Pension office, died to-day.

The President signed the bill for the further security of equal rights in the District of Columbia.

The Senate to-day confirmed Elizabeth Van Lew as Postmistress at Richmond, Va.; John Titus, United States Judge for Arizona, and Emily M. Haynes, Pension Agent at Brooklyn, vice Porter resigned.

THE NEW SPANISH MINISTER.

Mr. Roberts, the new Spanish Minister, to-day presented his letter of credence to the President, and made a few remarks expressive of the desire of his country for the sympathies of the United States with the new order of things in Spain. He would endeavor by all means in his reach to maintain and strengthen the friendly relations which always existed between Spain and the United States. The President replied: "Mr. Roberts, I am happy to receive you as the envoy extraordinary and Minister Plenipotentiary of Spain in the United States. The recent events in that country to which you advert have excited and will continue to maintain a lively interest here, hoping as we do that they may ultimately lead to an increase in the welfare and happiness of the people of Spain. The disposition which you express to exert yourself during your mission to the end that those friendly relations which have always existed between the two countries may be strengthened, will be cordially reciprocated by me."

ADDITIONAL MARKETS BY TELEGRAPH.

New York Finance and Trade.

Gold Closed at 131.

NEW YORK, March 19—P. M.

MONEY.

The money market was stringent up to two o'clock and 7 ℔ cent. gold interest was freely paid by brokers, but subsequently the demand abated somewhat, and loans were made at 7 ℔ cent. currency. The large amount of bonds in the hands of foreign bankers which have to be carried pending the sale of the exchange against them increases the demand for money, and adds to the monetary distress. These bankers, who are generally lenders are now borrowers. There is no currency coming this way, and the country bank balances here are unusually light, and in the event of any extra accommodations being required by country banks to bridge over settling day, Wall street would have to pass through a severe ordeal, though the stringency might not be so severe as last March and April. There are no positive indications of a lock up, but should a resort be had to such measure it would greatly aggravate matters. Discounts dull.

STERLING.

The sterling exchange market is demoralized, and there is great hesitancy pending the action of the Bank of England Directors about raising the rate of interest. The recent large purchases of bonds by foreign bankers have added heavily to the volume of exchange on the market, or to some on the market, and the market is dull and heavy at 108¼@108½ for 60 days, and 108¾@109 for sight bills. The market is too in a condition to take all exchange made by these purchasers of bonds, and the bankers have to a great extent withdrawn from the field. Bond bills are offered at 107¾@108 without leading to much business, and Cable transfers were made at 108⅞.

GOLD.

Gold opened at 131¼, fell to 130¾, advanced to 131¼, and closed at 131. The transactions were heavy, and there has been considerable excitement. Clearances at the Gold Exchange Bank $121,000,000. Rates paid for carrying, 1½@7 ℔ cent., and for borrowing 3 ℔ cent. to flat. These figures indicate a large short interest, and are somewhat remarkable in view of the stringency of money.

GOVERNMENTS

Are irregular and generally lower, closing steady. Coupons of '81, 116¾@116⅞; do '62, 119⅞@119⅛; do '64, 115¾@116; do '65, 117@117⅛; do new, 113¾@113⅞; do '67, 113⅞@113⅜; do '68, 113⅞@113⅛; 10-40s, 105¾@105⅞.

STATE BONDS

Dull. Missouris, 87¼; old Tennessees, 66¼; new do, 63¾@63⅞; North Carolina, 58@58¼.

THE STOCK MARKET.

The railway market during the forenoon was strong and active, with the principal business in Northwestern, Pittsburgh, Reading, and Michigan Southern, Toledo and Pacific Mail. Northwestern improved to 85 for common, and 92¾ for preferred. The market continued strong throughout the afternoon, with Northwestern as the feature.

Having made the cultivation of the above Fruits a specialty for a number of years, our collection is much the most complete of any in the country. Our stock of

VINES AND PLANTS

For sale this Season, is very large and superior which we offer at prices as low as the same QUALITY of a GENUINE article can be had anywhere.

The country is flooded, by unreliable agents, with inferior and spurious stock, which will give nothing but disappointment to the planter. Vast sums of money are thus annually worse than thrown away, and by the time the Vines and Plants should produce fruit, the party who furnished them is out of reach, and the planter has no recourse.

Failure in Small Fruit Culture is generally the result of a choice of inferior varieties and poor stock. We *guarantee* our Stock to give *entire satisfaction* in *Genuineness, Quality, Prices*, and, with proper culture, YIELD OF FRUIT.

The NEW EDITION of our DESCRIPTIVE and ILLUSTRATED SMALL FRUIT CATALOGUE of 52 pages, and PRICE LIST FOR SPRING OF 1869, of 16 pages, will both be sent to all applicants inclosing 10 cents.

Whether Growers wish to purchase our stock or not, they will find these two Pamphlets of 68 pages of great value, and worth more than ten times their cost.

The Daily Commercial.

SATURDAY, MARCH 20, 1869.

IT is seen that in the harbor of New York, a short time ago, there were more vessels flying the British flag than there were with the flag of the United States at their peaks. If we persist in consuming the products of British labor in preference to our own, we must be content to have them shipped from British ports in British vessels in preference to those of the United States.

IT is to be regretted that those members of Congress claiming experience in the profession of law conceive that the Congressional Chamber is merely another name for a court-room, and that, as a matter of course, it is their duty to impugn the motives of other members, throw out mean insinuations, adopt a brow-beating or bantering manner, and contrive to arouse public attention at the expense of common decency. The habit is pernicious. We hope steps will be taken to check it.

THE SOLDIERS' HOME.

We point with pride to the brief history of the Pittsburgh Sanitary Soldiers' Home, published in another column. Few of our readers are aware of the existence of such an institution in our midst, and fewer still have any idea of the good which has been accomplished through its instrumentality, and the benefits which it is capable of conferring in the future upon any soldier who stands in need of the aid and support which it so generously tenders to all. The endowment fund is munificent, amounting to $175,000, and yielding an income of $10,500 per annum in gold. This fund is mainly the aggregate of the free will offerings of thousands of loyal men and women of Pittsburgh and the surrounding country, in aid of the sick and wounded soldiers of the nation, in their struggle with the rebellion. This report, although covering but one item going to make up the immense aggregate contributed by our people in support of the war, is one of which we may justly feel proud. Over ten thousand soldiers have already partaken of the benefits of the Home, and the doors are still open to all who have become disabled or helpless in their country's service. It is also to our credit that of all the private "Homes" established after the close of the war, this one alone remains, all others being conducted under the liberal provisions of the United States Government.

With such a noble institution in our midst, and one so admirably conducted, we can readily join with the Managers in expressing regret and surprise that any soldier "should prefer to lead the precarious life of a beggar, to accepting the comforts of a Home so freely offered." We are loath to believe that any disabled soldier, knowing that there is such an asylum, where he can enjoy the comforts of life as a right, will prefer to beg his bread from door to door. It is therefore the duty of every citizen to make known the advantages of the institution to all who are ignorant of them, and to this end the publication of the report will tend in a large degree.

THE BRITISH PRESS ON THE INAUGURAL.

The tone of the English press in discussing the President's Inaugural reminds us forcibly of the peculiar phase of human nature exhibited by that class of people who never take a sermon home to themselves, but are at no loss to discover its application to somebody else. With the exception of that portion of the paper relating to foreign affairs, our English cousins experience no difficulty in comprehending the President's meaning, but they are utterly at a loss to solve the sentence "which seems to suggest something" in relation to the Alabama claims. The *Times*, with its accustomed dexterity, avoids committing itself by gliding over the paragraph "which seems to refer to the question in dispute with England," without a single comment. The London *News*, *Star*, and *Post* are equally dubious. They are unwilling to believe that the sentence "if others depart from this rule in dealing with us, we may be compelled to follow the precedent," has any reference to the unfortunate dispute which has arisen between the two countries. This dullness of perception is merely momentary, however. The moment the English mind is directed to the probable result of the President's policy as applied to other nations, everything becomes perfectly clear and plain. Thus the *Star* argues that Grant will not imitate Pierce and Buchanan in their filibustering doctrines, which we are told claimed Mexico, Cuba and Central America "by the right of the strong to subdue the weak"—a very neat way of measuring American corn in an English bushel. The *News* is equally positive that the employment of the words "law abiding citizens" in the clause relating to naturalization, is a rebuke to Fenianism.

The gingerly manner in which the doubtful sentences are approached and handled by the London journals from the Thunderer down to the latest penny paper is vastly amusing. But one single journal possesses sufficient courage to tackle the "ambiguous" paragraphs fairly. The *Pall Mall Gazette* deals with them honestly. In its opinion the foreign policy indicated is "unexceptionable so far as words go." We hope the deeds will correspond with the words. Instead of pretending inability to comprehend the real meaning of the inaugural, it prepares its readers, in an ironical paragraph, for a series of reprisals the moment the United States perceives its opportunity.

A COMPLICATED CASE.

A correspondent of the Montgomery (Ala.) *Mail* has "interviewed" the Hon. GEORGE H. PENDLETON. The utterances of the "Young Eagle of the West," as related by the correspondent, display the true Delphian ring. Anything more oracular, or more vague, it would be difficult to imagine. In proof of which we submit the following:

"Mr. Pendleton," I asked, "have you read this morning the [illegible] address of Mr. Johnson?" [illegible]

Our readers cannot fail to have remarked that the man who permits himself to be formally "interviewed" for the benefit of the public, by common consent, assumes the position of an oracle. We object, decidedly, however, to the habit so frequently indulged by the oracles who aim to impress us with their superhuman powers. This is displayed in a constant inclination to lift themselves above the dead level of ordinary comprehension. We see no reason why the utterances of the supposed to be oracles should not be subjected to the same scrutiny applied to the language of ordinary mortals. We cannot be expected to comprehend what is clearly beyond our mental grasp. In an attempt to make the most of a difficult or extremely subtle subject, we are justified in pursuing a course that will render coherent that which appears incoherent. The oracular responses should be made to fit the questions, if possible. Would it not be more natural to suppose that the above queries and answers should follow each other thus:

"Have you found time to read A. J.'s last fling at Congress?" [illegible]

Although we have succeeded in rendering the beginning of the dialogue more intelligible, and, no doubt, more truthful than we find it in the Montgomery *Mail*, we find the closing paragraph more difficult to deal with. When the "Young Eagle of the West" charges the Democracy through his interviewer to "*make no promise to the negro*," his perturbation is plainly apparent. Overpowered by the vision his disordered mind conjures up, he indulges in such moving appeals as these:

[illegible]

The dread "nigger" is a difficult subject to deal with. Mr. PENDLETON'S own language demonstrates this. His ideas become tangled the moment he touches the question. It is evident that the spirits of the Western Eagle become oppressed the moment he permits his thoughts to dwell on the fatal topic. He expresses the hope "that in a few years, if not sooner, the manhood of the white race will be asserted." And finally he dismisses his audience with the following counsel: "By patiently biding your time you will ride on the wave of success, but if you complicate questions by making imprudent pledges through despair or impatience, you strengthen the enemy and postpone the hour of deliverance." We have only to add that if Mr. PENDLETON purposes pursuing the interviewing business, or can be prevailed upon to repeat it by request, he will interview seriously with NASBY'S success.

AT the late "Free Trade meeting in New York, ship owners were among the most prominent speakers, and were the largest subscribers to the fund for "enlightening the West" by means of publications and missionary orators.

We suggest that when the missionaries of Messrs. MINTURN, BROWN, BRYANT, BARTON & Co. are enlightening the western farmers on the awful hardships of protective tariffs, they might make a point by informing their hearers in regard to the "protection" the revenue laws afford to ship owners. When the flour and grain of our western friends reach New Orleans by the new barge lines, it cannot be shipped thence to New York in any other than the vessels of United States owners, however low the foreign vessels might propose to carry it. Here is a case where foreign labor and capital cannot be allowed to compete with that of New York. There is no class of capitalists so thoroughly protected as the ship owners. No foreign built vessel is permitted to sail under the United States flag in competition with theirs, and no foreign vessel is permitted to engage in the coasting trade. When the New York ship owners are ready to destroy themselves by opening the trade of the Atlantic coast, the lakes, the Hudson and the Mississippi rivers to the free competition of the vessels of all nations—whatever Western people may think of their folly they will give them credit for honesty, in sending missionaries to persuade us to destroy our manufacturing and agricultural industries for the benefit of the other nations of the world.

Mistakes of Managers.

The Chicago *Tribune* points out the mistakes of the managers of the theatres in that city in a friendly spirit. Among these mistakes, is the sudden lighting up of the auditorium from a dim, uncertain light, to a full flood of gas, without shades or globes, which is almost blinding to the eyes and cannot fail ultimately to injure them. Another serious mistake is the filling up of the aisles with camp stools. This is a hazardous practice. In case of fire the crowded aisles would prove a serious impediment to the egress of an audience. One of the most unaccountable mistakes of the managers is the omission, in the advertisement, of the hour at which the performance begins. But the worst of all mistakes is the moral mistake made by those managers who fail to pay attention to the class of people frequenting the matinees. Discussing this subject, the *Tribune* says:

"We confess we cannot see the sense in that discrimination which forbids the presence of improper characters at evening performances, and not only does not forbid, but tolerates and encourages them at matinees, which are specially given for the benefit of ladies and children. Of course, it is not always possible to say that this or that one is an improper person, but notorious characters, such as may be found by scores at any of our matinee performances, can be known and must be kept out, or the matinees at our theatres will be shunned by all respectable people. The evil is growing to be a nuisance. If an audience can be regulated in the evening, it certainly can in the afternoon."

ONE of the owners of the ship *James Foster Jr.*, is out in a card defending the Captain of the vessel. The Captain is dead, and the owner hints that his death was hastened, if it was not actually brought about, by the "cruel aspersions upon his character." This, in the face of the testimony of the passengers, ship's officers and crew, is a refreshing exhibition of injured innocence. The Captain has gone to his final account, but it is just as probable that his death was a retribution for the cruelties practiced by himself and his officers. No man possesses the same power as that commonly conceded the captain of a vessel. He is absolute. It follows that he is responsible for the management of his vessel. No argument that can be advanced can shield the memory of the captain of the *James Foster* from the obloquy which must follow it. We hope the horrors exposed by the evidence submitted before the coroner's jury will produce a beneficial effect. The brutality displayed by the officers of the *James Foster* is simply one of many frightful cases of the cruelties common to emigrant vessels.

THE appointment of George Sargent to be Postmaster at Harrisburg, said to be settled upon, gives great dissatisfaction to the Republicans of that city, judging from an editorial in the *State Guard*. Referring to the appointment, the *Guard* asserts that within the last eight years he has made a clear profit of not less than two hundred and fifty thousand dollars by his extensive levies upon the National, State and county Treasuries, while the claims of several most worthy applicants for the office, including a soldier's widow who is needy and abundantly competent, were passed by unheeded. A public meeting to protest against the "outrage," is called for.

A TEXAS paper reports the capture of an enormous frog, which is three feet four inches in height when in a sitting position, weighs 40 pounds, leaps ten feet in the clear, and has eyes two and a half inches in diameter. If this story is true, (and we have no reason to doubt that the State which has produced marvelous snakes and eagles is not also able to raise a frog four feet high,) we hope Mark Twain should be sent for to examine the creature. We have no doubt he might be able to establish relationship to the "jumping frog of Calaveras county." It is highly probable he could also inform us how it jumped all the way from California to Tennessee.

A NEW YORK JOURNAL, discussing the cost of carrying on the city government, adopts a novel style of consoling the taxpayers. After stating the annual cost of conducting the city government of Paris, which, with a population of 1,700,000 spends $80,000,000, it congratulates the citizens of New York, numbering 1,000,000, with being let off with $25,000,000, instead of $50,000,000. For our part, we are disposed to find fault with the fortune that is only endurable when compared with others misfortunes. As a general thing, taxpayers do not desire to imitate Mark Tapley.

ARTIFICIAL STONE, though it has failed in several instances in this country to furnish the requisite strength for building purposes, yet it is very popular abroad. It is stated that in the magnificent aqueduct, now in course of construction in France, to bring water from the forest of Fontainebleau to Paris, some of the finest arches on which the work is supported in crossing valleys are composed of a mixture of sand and cement exclusively, no stone or brick being used. At Cherbourg, Marseilles and Algeria, long piers and docks have been constructed of artificial stone, and at Port Said, on the Mediterranean, the engineers of the Suez Canal are building the sea walls of blocks of pure sand and hydraulic cement, weighing twenty tons each. Two long piers, respectively 7,000 and 6,200 feet long, formed of this material, have been run out into the sea.

HOG CHOLERA.—A large number of hogs have recently been condemned in New York city as unfit for food, and investigation showed that the animals had been ill of hog cholera in the West, and had been shipped to the East for sale. The history of this particular drove is very singular. The hogs were at Chicago, being fed at a distillery. The distillery having been closed under Government orders, the hogs were deprived of that kind of food. Their gums and teeth becoming sore from this kind of food, they could not be fed on hard corn, consequently they were immediately shipped to the East. At Buffalo they were pronounced diseased. Some seventy being found dead among them, they were not allowed to be slaughtered at that place, but were forwarded to Albany, where they were slaughtered and dressed, and reshipped for New York.

THE WORKING PEOPLE.—The New York German Cabinet Makers' Union formally deny that its members have struck, and state that a series of proposals is to be submitted to the employers before any positive action be taken. At a recent meeting of the Union, reports were received from 30 shops employing 2,000 men. In reference to the claim of the mechanics employed by the United States to receive full wages for eight hours' work, it is reported that the paymaster of the Washington arsenal computes eight hours as a day's work, while the paymasters at the Springfield and Rock Island arsenals insist upon ten hours.

VEGETABLE STAINS.—The best method of removing stains from linen and cotton fabrics produced by spilling wine or vegetable juices consists in moistening the surface affected (previously wetted), with a solution of hyposulphite of soda, dissolved in hot water, and then adding on the point of a knife a little pulverized tartaric acid, and rubbing this well in. After the stain has disappeared the cloth may be washed out in lukewarm water, and when dry no trace of the stain will remain.

THE ENGLISH RITUALISTS.—It is said that the number of extreme Ritualists, in England is exceedingly small. Out of 150 churches in London only eight use incense, and only fourteen are in favor of Eucharistic vestments. The old-fashioned High Churchmen have, therefore, some ground for the opinion that after all Ritualism is only one of the eccentricities of the day.

A CORRESPONDENT says, "The people at Hancock, Houghton, and Marquette, Mich., got slightly inebriated when the Copper Tariff bill passed the House; got still tighter when it passed the Senate, tapered off when it was vetoed; and when it was passed over the veto, they all got drunk again, and were still remaining in that delightful condition at the latest date."

AN EXCELLENT LAC for giving a varnish-polish to leather and rubber shoes, can be made by dissolving one part of black pitch and two parts of native asphaltum, both powdered, in four parts of good benzole, and shaking it up and digesting it at a moderate temperature.

OUR CHURCHES.

Denominational and Personal.

REV. E. B. SNYDER, who for two years has been pastor of the North Avenue Methodist Episcopal Church, Allegheny, closed his labors with said church last Sabbath evening. In his valedictory sermon he stated that when he began his labors there, the membership was but sixty-three; now it was four hundred and sixty-three. The Sabbath School commenced with seventy-five scholars, now it has seven hundred. During the same time $6,000 had been raised for pastor's salary and incidental expenses. The new house of worship, now in use, has also been built during Mr. Snyder's pastorate. An excellent record.

THE *Christian Radical*, a paper heretofore published at Springfield, Ohio, and edited by Rev. D. Schindler and Rev. Mr. Weaver, has been removed to this city. It is a live religious weekly, thoroughly evangelical, but taking advanced ground in favor of spiritual Christianity as opposed to the formalistic and ritualistic tendencies of the times, whether in one church or all the churches. Ecclesiastical haggling, or machinery, wherein it supersedes or debars Christ to the heart of man and society, has little favor with the *Radical*.

REV. DR. NEWMAN, of the Methodist Episcopal Church, recently laboring in New Orleans, has been elected Chaplain of the United States Senate. We presume this means that Dr. N. will also have pastoral charge of the new Metropolitan Methodist Episcopal Church, at Washington. If so, he will resign his editorship of the religious weekly, published at New Orleans, with which he is now connected, and the Presidency of a young Theological School at the same place.

THE house of worship, belonging to the Second United Presbyterian Church, Allegheny, which has been undergoing repairs and enlargement, is now finished. Last Sabbath its audience room was occupied for the first time. Its pastor, Dr. Clark, preached in the morning, and Dr. Pressly in the evening. The improvements cost about $9,000.

THE First Presbyterian Church (New School,) Philadelphia, of which Dr. Herrick Johnson, formerly of this city, is pastor, received an accession of forty-three persons to its membership on the first Sabbath of this month. Of this number, thirty-three were by profession and ten by letter. Mr. Barnes, its former pastor, assisted Dr. J. at the table.

AT a late missionary meeting, Chief Justice Chase, who presided, remarked that Christian missions "were destined to effect what all the conquerors of the world, from Nimrod to Napoleon, had failed to accomplish—the subjugation of the world." Noble words, as well as true.

LAST Sabbath ten persons were received on profession of faith in the Cumberland Presbyterian Church of this city, Rev. R. K. Squier, D. D., pastor. His church is growing rapidly.

THE revival in the Fifth Methodist Church, at Soho, still continues. The pastor, Rev. E. M. McGuigan, is being assisted by Rev. Messrs. Winfield, Evans and others. Many young people are being gathered into this new but vigorous church.

WE have in Pittsburgh, it seems, a Sabbath school of deaf and dumb children. It had its origin with Mr. Joel Kerr, to whose school was brought a little colored girl of this unfortunate class. This led him to search for others, and the result is that a school of twenty-five has been collected, fifty per cent. of whom are in regular attendance. Of course the sign language is employed in instructing them.

THE *National Baptist*, under the heading, "A Sad Sight," gives an account of the political life of ex-Senator Doolittle. The *Independent* says the *Baptist* is mistaken, and claims "that Mr. D. left the Baptist Church, three years ago, because his pastor preached politics, and went to the Episcopalians." Probably the wing represented by Mr. Kerr and Dr. Dix.

DURING the week ending March 13th, the *Independent* reports 7,330 conversions as having taken place. Of these 1,300 were among Methodists; 1,350 among Baptists; and 600 among Congregationalists. A wide survey of country seems to have been embraced in finding that general attention has been given to man's higher and better life.

REV. GILBERT HAVEN, editor of *Zion's Herald*, Boston, in his paper of March 11, thus speaks of "The Gospel in the Trees," by Rev. Alexander Clark, of this city: "It is one of the most original books ever issued from the press. The publishers have announced the third edition."

THE First Methodist Church, Allegheny, Rev. H. B. Knight, pastor, has received, within some four weeks, fifteen persons, as probationers and several as full members, on certificate and on profession of faith. Others are candidates, who will be brought forward at the first opportunity.

THE Baptists of England number 2,431 churches and 235,235 members; of Congregational, or Independent Churches, there are 2,989; the number of members is not stated.

SINCE the Revolutionary Government of Spain became inaugurated, not only Protestants, but Jews, are getting their rights of worship. The latter were even expelled in 1492, and have never, until now, been since known publicly. Several synagogues have recently been opened in Madrid alone.

THE *First* German Baptist Church in this country, was established at Philadelphia in 1843. In twenty-six years they have increased to 95 churches and 8,500 members.

IT is stated in the *Friend*, the Philadelphia organ of the people sometimes called Quakers, that in this State they are decreasing. Since 1828 but five new meeting houses have been established, while thirty-seven have been abandoned.

DR. MORGAN DIX, of Trinity Church, New York city, is reported as having said, recently, in a sermon, that "as for Protestantism, considered as a system, its power is broken, its epitaph is written and its grave dug." Dr. D.'s name should be changed to "Nix," or nothing, in the matter of wisdom.

AN American Episcopalian, named James Crystal, has been visiting Syra, one of the Cyclades Islands, Grecian Archipelago, and was there baptized by a Greek Bishop. He is soon to take orders as a priest, and return to New York to start a Greek church.

DURING the past ten months the American and Foreign Christian Union has made an advance of 20 per cent. in its collections as compared with the previous year. Its appropriations for the current year are $30,000 beyond the former. Its great work is on behalf of the Roman Catholic population, at home and abroad.

THE African Methodist Episcopal Church and the Unitarians are co-operating for educational and missionary work, especially among the freedmen. Unitarian graduates at Antioch College are to lecture at Wilberforce University, Ohio, to those being educated at the latter place, for teaching. Books are to be provided for the ministry of the former church by the latter body, &c. The law of need and supply finds strange affinities sometimes.

THE total number of Jesuits employed as missionaries throughout the world is 143. These are distributed as follows: In Hindostan and Bombay, 29; Madura, 59; China, 43; other places, including Syria, Armenia, 28; of scholastics, not yet admitted to full membership, there are 81, and of coadjutors 42.

DR. HALL, it seems, has been obliged to start a paper in Spain to disseminate Evangelical principles. This is owing to the fact that the agreement with our Minister, Hon. J. P. Hale, by the Government, in regard to the introduction of foreign books, has not been fully complied with. Spain is destined to be enlightened at all events.

IN Naples, Italy, there is a society of forty converted Romish priests, engaged in Evangelical labors. They publish a weekly religious paper, in addition to their other labors.

WE did not know that the "Disciples," sometimes known as Campbellites, were prejudiced against instrumental music in churches. But it seems that Elder Franklin, of Cincinnati, lately refused to preach in a certain place, unless an "ungodly box (melodeon,) was removed." Elder F. being a prominent man in that denomination, and the editor of one of its influential papers, indicates a bugbear we were not aware of.

BISHOP SCOTT, of the Methodist Episcopal Church, organized, recently, a conference of colored ministers in and for Kentucky. Hitherto they have been connected with the whites in conference relation. The Catholic Church, even, would have done no such thing. Whatever errors on other subjects it may have, it knows no caste.

THE Unitarians claim that during the last year they have received more accessions to the ranks of their ministry from Methodist bodies than from all their theological schools together. We should not have supposed this, from what we understand of Methodistic habits and modes of thinking.

GEN. JOHN A. LOGAN, member of Congress from Illinois, has recently made a profession of religion, and united with the Methodist Episcopal Church at Carbondale, his place of residence. His wife has long been a member of that denomination.

THE French Academy of Sciences must be fully convinced that the missionary traveler, Rev. Dr. David Livingstone, is not dead, since it has just elected him a member to fill the place made vacant by the death of Alexander Dallas Bache, of this country.

MR. LYELL, a writer on geology, thinks the human race has existed on this earth 20,000 years. But Dr. Pfaff, a German writer, thinks 7,000 is the period. We hope soon to chronicle the fact that the so-called wise men will conclude that the Bible on this subject is better authority than all of them. This gives the period of about 6,000 years.

IT having been predicted that when the Pacific Railroad was finished, Mormonism would be seriously affected, Brigham Young is reported as replying—"That it is a poor religion that won't stand one railroad." It may "stand" and nevertheless get *run over*. This last may be the fate of Mormonism.

PRESIDENT GRANT is said to be a constant attendant at Dr. Sunderland's church (First Presbyterian), Washington city. His children also are regularly in their places in the Sabbath school of the same church.

OUR Methodist Episcopal friends are getting up what they call "sisterhoods,"—or bands of women, to visit and relieve the poor, look up children for the Sabbath School, &c. The thing is all right, but the name smacks too much of High Churchism, we would suppose.

THE *Christian Quarterly* is the title of a new periodical, issued by R. W. Carroll & Co., Cincinnati, Ohio, and edited by Rev. W. T. Moore, Pastor of the Christian (Disciples) Church, corner of Eighth and Walnut streets, of that city. It is the handsomest of the Quarterlies, and is filled with articles eminently progressive and powerful. The whole Christian community should rejoice in so able a defender of the Gospel of Jesus Christ. It is broadly evangelical and above sectarianism. President Errett, of Alliance College, Ohio, and President Pendleton, of Bethany College, West Virginia, are corresponding editors. Mr. Moore is himself a spirited writer, and a popular preacher. This work will exert a wide influence for primitive Christian truth, and deserves success.

PULPIT CHANGES.—There is no more devotion or self-denial among modern men than that found among itinerant preachers. They deserve the respect and confidence of the community. The significant and sympathetic remark of a religious contemporary, expressed in the Autumn of 1866, in reference to a certain class of ministers, denominating them "pulpit ephemera, here to-day and somewhere else to-morrow," contains a truth obscure at first, but more and more apparent every year. How apt the cautious public to overlook the affectionate words of the press! We believe there has been a change of pastor in every Methodist Episcopal and every Methodist Protestant pulpit in these cities since that discriminating and appropriate appellation was published, with the exception, perhaps, of that of the Methodist Protestant Church on Fifth avenue, near Smithfield, Rev. A. Clark's. The three-year pastorate is popular in the Methodism of Pittsburgh, but even with that limitation, or with still longer terms, as Methodist Protestantism now permits, how fitting the words, "Here to-day and somewhere else to-morrow." These thoughts occur from the fact that the Pittsburgh Conference of the Methodist Episcopal Church, one of the largest and most influential bodies in the denomination, is now in session in New Philadelphia, Ohio.

ON the subject of the increase or decrease of Romanism in this country, the *American Churchman* (Protestant Episcopal) says: "We hold it capable of clearest proof that this country has received—take the existing United States together—at least two Romish emigrants to one Protestant, and that consequently at this day the population of this country should be *two-thirds* Romish, instead of being as it is, *one-eighth* Romish."

REV. DR. H. MILLER, having closed his second year as pastor of the Smithfield Street M. E. Church, has received from his congregation the very appropriate gift of a beautiful $293 Parlor Organ from the house of Barr, Knake and Buettler, No. 12 St. Clair street.

LAST Sabbath was observed as Missionary anniversary at Liberty Street M. E. Church. The pastor, Rev. W. H. Locke, preached in the morning, and addresses were made before the Sunday School in the afternoon by Rev. T. S. Hodgson and Dr. H. Miller. The contributions of the Sunday School were [illegible] and the entire contributions during the day were over $1,000.

STATE AGRICULTURAL CONVENTION.

Important Resolutions Adopted.

The State Agricultural Convention, composed of delegates from the State and County Societies, assembled at Harrisburg on Wednesday, and after a temporary organization was effected, sixty delegates answered as present.

A committee on permanent organization was appointed, and reported the following officers:

President—Governor John W. Geary.

Vice Presidents—Thomas P. Knox, John E. Park, Thomas Searight and Moses Thompson.

Secretaries—A. B. Longaker and John A. [illegible].

Governor Geary upon taking the chair made some appropriate remarks, referring to his membership in the Agricultural Society, the interest he felt in agricultural affairs, and thanked the members of the convention for the honor conferred upon him.

Addresses were made by Senators White and Coleman.

A resolution requesting the Legislature to publish the Botanical Survey of the State, made by Professor T. C. Porter, of Lafayette College, was offered and laid over for further consideration.

The committee on business reported a series of resolutions, recommending county societies to arrange their exhibitions so as to become tributary to the State exhibition; complimentary to the Agricultural College and its new President, and requesting the Legislature to make an appropriation to assist in defraying the expenses of a grand trial of implements, and of utilizing offal for fertilization, and for the passage of a law authorizing the collection of statistics of the products of the State, and for general amendment of the road laws of the State.

A resolution was adopted requesting the Legislature to pass immediately the Senate bill No. 411, relating to roads and bridges.

A resolution was also adopted condemning any system of compulsory inspection of live stock by special acts of incorporation.

In accordance with a resolution a committee of three was appointed to prepare such bills for legislative enactment as in their discretion they may deem necessary to facilitate the agricultural interests of the Commonwealth, with instructions to report to the State Agricultural society, which shall present the same to the next Legislature.

On motion, the Convention adjourned sine die.

WALTHAM WATCHES.

To Buyers of Watches Everywhere.

The greater part of the jewellers of the United States keep Waltham Watches, and cordially recommend them to their customers, notwithstanding the fact that less profit is made on these watches than on any others generally sold by the trade. The reason of this is, that the reputation of the Waltham Watch renders it an easy sale, and the result is, that, although the dealer does not make as much money on each individual watch as he may on the sale of other watches, he is still the gainer through larger and livlier sales. There are some, however, among the trade, who do not give the Waltham Watch that hearty support which it deserves. This portion of the trade fancy there is more money to be made by dealing in watches about which the public are ignorant, and in which there is less competition, and are content to make an occasional sale of such watches at a large profit. It is this class of dealers who, when asked about Waltham Watches, use that kind of language which leads the customer finally to buy just such a watch as is the most profitable for the dealer to sell.

For the information of persons about to buy a watch, and who may be unfavorably affected by the representations of those unfriendly to our watches, we call attention to the following suggestions:

Since the manufacture of watches was initiated at Waltham, the Company have made and sold about 400,000 watches. In every town and village of the country some wearer of a Waltham Watch may be found. Let the party about to buy ask this owner of an American Watch this question:

Has Your Watch Given You Satisfaction

We are not afraid to advise those wishing to buy a watch to guide themselves by the answer. Being satisfied as to the quality of the watch, the buyer has now only to satisfy himself that the Waltham Watches are THE CHEAPEST as well as the best. On this head we have a few words to say:

It is a well known fact in manufacturing, that the greater the number of articles manufactured by one establishment, the smaller will be the cost of each individual article. Keeping this in view, our policy has always been to sell our products at the lowest possible price in order to secure large sales, and thus enable us to manufacture watches at a minimum cost. WE BELIEVE IN SMALL PROFITS AND A LARGE BUSINESS. This policy we have successfully carried out, and the result is, that to-day we manufacture twice as many watches as all the other factories in the United States put together.

We can, therefore, afford to sell Cheaper than they do, and actually do sell Twenty-five per cent. Cheaper than they do, quality for quality.

We would further remark that in increasing our product we have constantly improved its QUALITY AND ITS VARIETY. We have had the refusal of nearly all inventions intended to improve timepieces, and have adopted all those, and those only, which have proved to be really valuable. We have retained in our employment every head of a department we have ever had, whose services were of any importance to the Company, and our present corps of designers and master mechanics cannot be equaled in this or any other country. In addition to this we make gold and silver cases, not only for our own movements, but for those of other factories, ours being the only establishment that turns out watches complete in every respect.

As these Watches are for sale by the Trade generally throughout the United States, and at a retail profit most reasonable by competition, the Company invariably decline orders of a retail character.

MONONGAHELA MARKS—Six feet and a half and falling.

THE Monongahela marks last evening indicated six feet six inches and falling. The weather during the day was mild; in the afternoon we had a warm rain. We can safely promise a rise of water before many days. Business on the landing was active; shipments liberal.

THE Fayette, Capt. Mason, left for Parkersburg on time, with a fair trip.

THE powerful steamer Kenton, Capt. W. H. Kerr, left for Portsmouth on time.

WE are indebted to our old friend Vandergrift, of the Lowena, for a manifest. Thanks.

THE steamer Great Republic passed Cairo on Wednesday en route to New Orleans.

THE steamers Sallie and Maggie Hays passed Evansville on Wednesday *en route* to Saint Louis.

THE Wheeling packet for this day is the steamer Grey Eagle, Capt. Brennan, leaving at 12 M.

THE packet New York, Captain Richmond, will be the first boat for Cincinnati and Nashville.

THE Wild Duck and barges, Captain J. W. Anewalt, will load for St. Louis and have dispatch.

THE steamer Belle Vernon, Capt. J. J. Darragh, passed Cairo on the 17th on her way to New Orleans.

THE Leonidas, Capt. E. Evans, passed Cairo on Wednesday on her way to Pittsburgh from New Orleans.

THE Messenger left for St. Paul, loaded to her utmost capacity with through freight, some 600 tons. Pilots—Captain Dean and Wm. [illegible]

THE steamer Silver Lake No. 4 left for Fort Benton last evening. She has 400 tons freight and engagements below. Pilots—Captain Poe and Thomas Kinsey.

THE new Northern Line packet, Minneapolis, is nearly ready for business. She will be the star boat of that line. She will be commanded by Captain J. B. Rhodes.

THE powerful towboat Tom Farrow, Captain Charles Matthews, is announced for Evansville, Cairo and St. Louis, and will have dispatch.

A LOUISVILLE dispatch says the Allegheny Belle was raised there is, with a barge of iron ore, for Pittsburgh. [illegible]

PITTSBURGH SANITARY SOLDIERS' HOME.

History of its Organization and Progress.

Financial Condition, Inmates, Etc.

In compliance with a resolution passed at the January meeting of the Pittsburgh Sanitary Soldiers Home, the following condensed statement of the history and operations of the institution from its inception to the present time, has been prepared by the officers for publication:

ITS ORIGIN.

On the 2d of May, 1864, previous to the opening of the great Pittsburgh Sanitary Fair, the Chairman of the Executive Committee announced that it had been decided to reserve of the expected proceeds "twenty-five per cent. for the establishment of a Home for disabled soldiers, provided that the exigencies of the war shall not pressingly require said reservation to be expended for relief of the sick and wounded in the armies." Accordingly, after the close of the Fair, the sum of [illegible] was conditionally reserved for the purpose, and placed in the hands of trustees. [illegible]

HIGHWAY ROBBERY ON PENN STREET.

The Accused Arrested, Committed and Indicted by the Grand Jury.

A most daring highway robbery was perpetrated on Penn street, Twelfth ward, between eight and nine o'clock on Thursday night. About the time mentioned Mr. John Lee, of St. Clair street, was passing down that thoroughfare when he was suddenly attacked from behind by two ruffians, who garroted and choked him until he was nearly insensible. He was then knocked down and robbed of an open face gold watch, worth about one hundred dollars, and a portion of the chain, the same having been broken by the thieves in pulling it from his pocket, and one part of which still hung to his vest. His face and neck were also very much swollen from the effect of the transaction, but a cry was immediately raised and the Mayor's police were sent on the hunt of the thieves. About eleven o'clock the same night, two men named James Dunn and James Allen were arrested on suspicion of having been the robbers. [illegible]

Taken for a Horse Thief.

About half-past three o'clock yesterday afternoon the Mayor's police arrested a man giving his name as Joshua Reed on suspicion of having stolen four horses which he offered for sale at the horse market, on Irwin street. [illegible]

Rather Mixed.

The partners of a roofing firm in this city became involved in a difficulty not long since, which resulted in one of them turning the entire business, stock of material, &c., over to his wife, for and in consideration of a certain sum of money, and then absenting himself. [illegible]

THE SPRING ELECTIONS.

Returns from East Birmingham, Birmingham, South Pittsburgh, Monongahela and Mt. Washington Boroughs.

The annual Spring Elections for Township and Borough officers in the various townships and boroughs throughout Allegheny County, took place yesterday, and in some of the boroughs quite a lively contest took place. An unusually large vote was polled in East Birmingham, and the election there resulted in the choice of the Republican ticket. In Birmingham nearly one thousand votes were polled, which is a larger number than has been polled there for years on any similar election. The Democrats were victorious in this borough in the election of Burgess, two Councilmen and some other officers.

In South Pittsburgh, the entire Republican ticket, with but one exception, was elected, over the Citizens' or Democratic ticket, and in Monongahela borough the Republicans were victorious. The Republican ticket was elected in Mount Washington borough.

Below will be found the returns from the boroughs named:

How Hostetter's Bitters Cure Dyspepsia.

THE WHOLE STORY IN A NUTSHELL.

The office of the stomach is to convert the food into a cream-like semi-fluid called CHYME. This is effected partly by the action of a solvent, called the gastric juice, which exudes from the coating of the stomach, and partly by a mechanical movement of that organ, which churns, as it were, the dissolving aliment. The CHYME passes from the stomach into the duodenum, or entrance into the bowels, where it is subjected to the action of the bile, and the nutritious portion of it converted into a fluid called Chyle, which eventually becomes blood. [illegible]

In this way, HOSTETTER'S BITTERS cure dyspepsia and liver complaint. The explanation is plain, simple, philosophical, and true.

The Good Time Coming at Hand.

It has been very evident to most gentlemen for several years past that they have been paying exorbitant prices for their clothing. No man of taste wishes to be out of fashion in the cut and make of his garments, and, therefore, all such have been compelled to pay fancy prices rather than resort to the cheap dealers in ready-made clothing. We never knew for a certainty the causes for these exorbitant prices, but were let into the secret recently which we now give our readers. Fast young men must have good clothes, and resort to all manner of dodges to "do" their tailors. The consequence is many tailors' books are burdened with bad debts, which must be made up or bankruptcy ensues speedily. There is only one way to do this, and that is to make those who pay cash, or whose word is as good as their bond, pay two prices for such articles as they may want. In this way bad debts are cancelled, but profits are reduced. We are glad to learn, however, that this system does not prevail at one establishment that we wot of, that of Messrs. Anderson, Penzold & Carson, No. 18 Sixth street, opposite St. Clair Hotel. These gentlemen have just secured their spring stock of goods, which embraces all the most desirable fabrics and of choicest patterns. These they are prepared to make up into garments of the most fashionable mode, for cash only, and at prices that will astonish all who honor them with their custom. They are determined to have no bad debts on their books, and to that end will make clothing at greatly reduced prices for cash. By following this rule their customers will not be paying for the clothes sported by some gay but impecunious individual. We commend all in want of fashionable clothing, at prices within the bounds of reason, to call upon Messrs. Anderson, Penzold & Carson, No. 18 Sixth (late St. Clair) street, and examine their goods and rates.

Queensware, Bristolware.

At the warehouse of Messrs. S. M. Kier & Co., No. 363 Liberty street, can be found an excellent article of Queensware, Bristolware, &c. Messrs. Kier & Co., manufacture all the wares sold by them, and in such a manner that in quality and finish they are considered fully equal to any in the market. Merchants and others would do well to bear this fact in mind, and when in need of any goods in this line give Messrs. Kier & Co. a call, for we feel assured they cannot be better suited at any other house in the city.

Assignee's Sale of Farm Implements, Garden Seeds, &c.

Farmers and gardeners who wish to get a bargain in Garden Seeds, Agricultural and Farming Implements, Mowers and Reapers, Cider Mills, Plows, Shovels, Rakes, Hoes, Hay and Manure Forks, &c., &c., should not fail to visit the store of Messrs. Beckham & Long, No. 127 Liberty street, where the above goods, in connection with many other articles too numerous to mention, will be sold from day to day until the entire stock has been disposed of.

Valuable Real Estate.

This day at 2 o'clock P. M., on the premises, will be sold that desirable lot of ground, corner of Liberty street and Stevenson alley, opposite Union Depot Hotel. At 3 o'clock, that warehouse, and lot 359 Liberty street—at 4 o'clock, that property corner of Fourth and Ferry street, known as the Farmer's Inn. Also, a vacant lot adjoining property owned by C. Slade, Esq., Fourth street; also, a ground rent of $100, payable out of lot owned by C. Slade. See advertisement of H. B. Smithson & Co.
